Script for HSVARC Weekly Net

Good evening, this is **<<your call>>**. I'll be your net control station for this evening's Hot Springs Village Amateur Radio Club net. This net is held each Tuesday at 2000 (twenty hundred) hours local time. Its purpose is to provide an opportunity for local amateurs to handle traffic of all kinds and allow discussions of mutual interest.

This net uses the W5HSV repeater which is owned and operated by the Hot Springs Village Amateur Radio Club. W5HSV is an open repeater and everyone is welcome to use it. In times of emergency, W5HSV is expected to be a valuable resource to the local communities and agencies. If the W5HSV repeater is unavailable, 147.015 simplex should be used.

Everyone is welcome to check in to this net. All Hot Springs Village Amateur Radio Club members are encouraged to share the responsibility and gain experience by periodically acting as net control station. Will the station assigned for next week's net please acknowledge that assignment now.

<<Acknowledge and thank that station. If none, ask for a volunteer to get verification off line.>>

I'll be taking check-ins at this time. When checking in, please give me your call phonetically as well as your name.

First those stations that are mobile, portable or can only stay a short time. Come now.

<<Acknowledge stations>> <<Go through the check-in list asking each station to comment if they wish>>
Now, all other stations, please check in.

<<Acknowledge stations and repeat until silence>>

We will now ask each station that has checked in to say a few words if they would like. It is an opportunity to share anything that may be of interest to the group.

<<Go through the check-in list asking each station to say a few words>>

<<Check for additional check-ins>>

<<Allow late check-ins to say a few words>>

<<Ask if there is any further business for the net>>

Since there is no further business this is **<<your call>>** closing the net at **<<current time>>**.
We had **<<count >>** check-ins to the net this evening. Thanks to everyone and good evening.
